

INSTITUTE OF  
BANKING & FINANCE

I'm handling foreign  
currency in my bank.  
When will You Apply?

# PG Diploma in Banking & Finance with integrated CITF

# 1 Year PG Diploma in Banking & Finance with integrated CITF Curriculum

## About the Program

PG Diploma in Banking and Finance opens a plethora of opportunities in the field of retail and commercial banking for graduate students. Unlike the ordinary finance courses, a specialization in Banking makes the students a much sought after resource in the banking industry. A post graduate diploma starts by providing fundamental clarity and then exposes the candidate to essentials of banking and finance. While making the student a job ready professional, the course also prepares them for IBPS and SBI exams. This makes it world's only PG Diploma in Banking that prepares the candidates simultaneously for public sector and private sector banks.

## Benefits of Integrated CITF Curriculum

The career as a CFA is respected globally and is financially rewarding. There are only 90,000 CFAs in 130 countries of the world making them an elite group of highly paid and sought after professionals. With integrated curriculum it becomes easy for the students of this Masters Degree to simultaneously pursue, the 3 level examination conducted by CFA institute to become a Chartered Financial Analyst. With a specialized Masters Degree combined with CFA, a student can seek global jobs in functions such as investment banking, treasury operations, risk management, portfolio analysis, equity research, etc.

## Teaching Methodology

There are only a handful of banking professionals, who have the ability to handle with proficiency banking documentation for international trade. Add the complexity of multi currency transactions and inherent risks of fluctuation in currency rates, these become professionals in high demand. Certificate in International Trade and Finance (CITF) is a professional qualification for trade, export and commodity finance executives who need to demonstrate a thorough understanding of key procedures, practices and legislation in trade finance at international level. The exam for this certification is conducted by International chamber of Commerce (ICC). With this a student can easily seek jobs in trade department of a bank.
